

ATI Orientation and Resources

The comprehensive ATI review program offers the following to students:

A comprehensive, assessment-driven review program designed to enhance student NCLEX® success.

Multiple assessment and remediation activities. These include assessment indicators for academic success, critical thinking ability, and learning styles. Additionally, online tutorials, online practice assessments, and proctored assessments are provided and span major content areas in nursing. These ATI tools, in combination with the nursing program content, assist students to prepare effectively, helping to increase their confidence and familiarity with nursing content.

ATI Orientation resources, such as the ATI Plan, may be accessed from the “My ATI” tab. It is highly recommended that students spend time navigating through these orientation materials.
