

INTRODUCING FOCUSED REVIEW 2.0 – FAQs

This guide contains the following:

- [What is Focused Review?](#)
- [When is a Focused Review available?](#)
- [Where do I access Focused Review?](#)
- [When will I get a quiz?](#)
- [I've accessed a Focused Review; what's next?](#)

What is Focused Review?

Focused Review is a media-rich, personalized study plan created after each assessment. Its content is based on your performance, linking to Review Modules for targeted study. After a practice assessment, Focused Review directs you to the exact material you need to study. You may receive multiple pieces of content to review, as well as a post-study quiz. After a proctored assessment, your Focused Review directs you to the entire chapter for additional material to study.

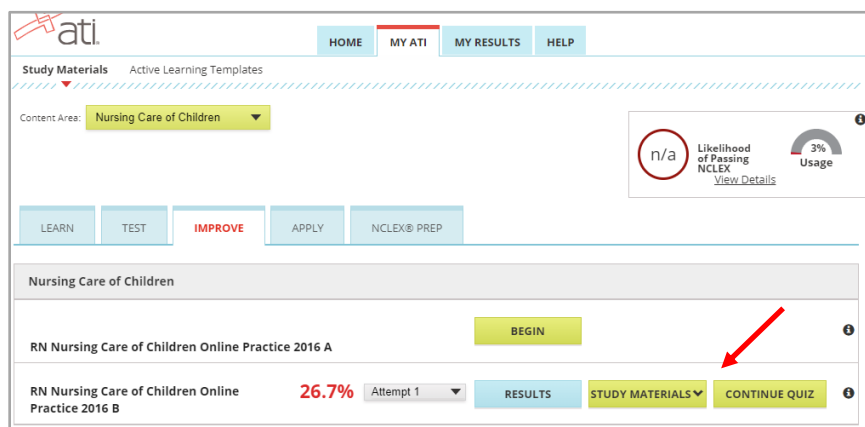

When is a Focused Review available?

- After you complete a practice or proctored Content Mastery Series assessment, you will have access to new Focused Review experience.
- Each test attempt will generate a unique Focused Review.

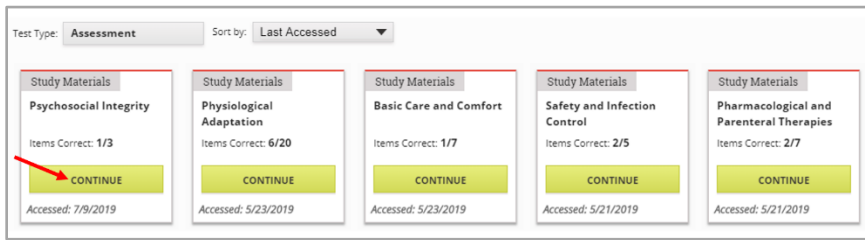

Where do I access Focused Review?

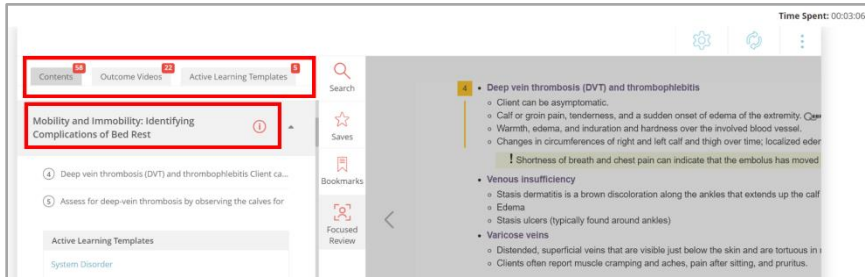

Upon completion of an assessment, you can access Focused Review by clicking **MY ATI > IMPROVE > STUDY MATERIALS**.

After clicking Study Materials, you will see a list of major content areas. The content areas listed here are the same as the Topics to Review on your Results report. Click a **BEGIN** or **CONTINUE** button to access the content area review.

The review materials within Focused Review are separated into 3 tabs; **Contents**, **Outcome Videos** and **Active Learning Templates**. The Contents tab contains a list of topics that you missed, and you can click on the red **i** icon to see the associated content area and sub scale for that topic. After completing the Focused Review for a content area, you can return to the previous screen and select the next content area to continue your review.

When will I get a quiz?

- After you complete each Content Mastery Series practice assessment and if you score lower than 75% on a major content area, a quiz will be generated for that content area. The number of quiz items will range between 1 and 50.

Adult Medical Surgical				
RN Adult Medical Surgical 2016	68.9%	Attempt 2	RESULTS	STUDY MATERIALS
RN Adult Medical Surgical Online Practice 2016 A	95.6%	Attempt 1	RESULTS	STUDY MATERIALS No Quiz Assigned
RN Adult Medical Surgical Online Practice 2016 B	55.6%	Attempt 1	RESULTS	STUDY MATERIALS BEGIN QUIZ

- Proctored Assessments never generate a quiz.

I have completed my Focused Review; what's next?

You can continue to remediate by retaking the practice assessment. Here is an example, of how you can proceed through Focused Review and multiple test attempts:

- Take practice assessment (attempt 1)
- Remediate using Focused Review for the practice assessment
- Take the quiz (if applicable)
- Remediate using Focused Review for the quiz
- Retake the practice assessment (new attempt)
