

## HEPATITIS B DECLINATION

Your occupation may place you at risk for contracting the Hepatitis B infection. Any staff member who reasonably anticipates skin, eyes, mucous membrane or parenteral contact with blood or potentially infectious materials (OPIM) that may result from performance of their duties could be at risk for contracting the Hepatitis B infection.

\_\_\_\_\_ DECLINATION: I understand that due to my occupational exposure to blood or OPIM (other potentially infectious materials) I may be at risk of acquiring the Hepatitis B virus (HBV). I understand that by declining this vaccine I continue to be at risk of acquiring Hepatitis B, a serious disease.
