No.	Description	Owner	Outcome/Discussion Topics
2019.02.01.01	Counselor Latimer shared a concern about how AB705 will impact other disciplines with students not needing to take Intermediate Algebra anymore if they get placed higher by MM.	Team	For example, Chem 2A has Math 52 as recommended but not required. Now students might be getting into Chem 2A and missing Algebra skills as they were able to bypass Math 52 meeting multiple measures criteria. Chris N. will have a meeting with Darren O., Jeremy B. and English faculty to bring AB705 awareness in rest of the departments.
2019.02.01.02	Stats co-requisite	Team	Stats co-requisite will be strongly recommended for the lowest band of GPA (not required as decided previously). Talwinder reached out to Martin to find out how students will be affected by this decision. He shared that Students can use co-req units as elective. If some students already used elective credits for some other courses, they can still get a fee waiver for co-req courses.
2019.01.02.03	Task of Classifying Programs as BSTEM vs SLAM	Team	Department agreed that it is more appropriate for programs to identify themselves if they fall under BSTEM or SLAM.
2019.02.01.04	Fall 2019 scheduling meeting	Team	Fall 19 scheduling meeting will take place on March 1 st . John T. will communicate with Dean Bagley to balance stats sections between Msyl and Sutter locations.
