| 4 | Math 9/20/21 Supplemental Course | Team | Update and feedback. |
| | <p>Background: Some work on the supplemental course was completed during the math teaching community meeting resulting in some questions/concerns that need to be addressed. An update on the progress will be shared and feedback on how to proceed will be gathered.</p> <p>Members discussed options for serving students in STEM/Business pathways. There was general agreement that, given the small size of YC and the limited number of sections of 20/21/9 and the repeatability issue, offering a single support course would not be the best way to serve these students. It was recommended that we consider reestablishing a robust Hard Math Café (perhaps with a name change) and that we staff it with faculty hours. This option should be brought to the meeting with administration for consideration.</p> | | |
