

5 Year Program Update

Programs assigned fall or spring for update to come through Curriculum Committee

Example: If Assigned fall semester 2019

First extension will be granted upon request.

To get the extension, the faculty member/s must provide information on the progress of their update and ask for an extension in writing if they need it. If they have been asked to provide an update and they don't take any action, then the dean is notified.

A second extension is granted or denied by a curriculum committee vote.
