

Ruby Bridges Paint and Sip Event

The artwork featured in this Beauty of Paint event is inspired by Ruby Bridges, a young black girl who helped make history as one of the first children to integrate a formerly all-white school. Her silhouette represents courage, strength, and the power of education to create change.

Celebrate Black History Month with Beauty of Paint. This interactive event offers participants a guided painting experience that celebrates creativity, self-expression, and cultural appreciation.

The importance of this event for college students lies in its ability to combine education, culture, and wellness in an engaging way. Reflect on Black history and beauty through art, while also offering a creative outlet that supports stress relief, community building, and personal expression.
